1. Executive Summary

1.1 Business Overview

DnDiscord is a next-generation virtual tabletop (VTT) platform designed as a Discord Activity, enabling real-time multiplayer tabletop roleplaying games with immersive 3D visualization directly within Discord servers. By leveraging Discord's massive gaming community of 200+ million monthly active users and 21 million gaming-focused servers, DnDiscord eliminates the friction of external applications while delivering a premium gaming experience.

1.2 Mission Statement

To democratize tabletop roleplaying by providing an accessible, visually immersive, and socially integrated gaming platform that brings players together regardless of physical distance.

1.3 Value Proposition

Feature	Competitor Gap	DnDiscord Solution
Platform Integration	External apps require switching contexts	Native Discord Activity - play without leaving Discord
Visual Experience	2D maps dominate the market	Full 3D BabylonJS rendering with isometric view
Onboarding	Steep learning curves (Foundry, Fantasy Grounds)	Simplified interface with progressive disclosure
Cost Structure	\$50-\$149 upfront or ongoing subscriptions	Freemium model with accessible pricing
Social Features	Siloed player communities	Built-in Discord community integration

1.4 Financial Highlights

Metric	Year 1	Year 2	Year 3	Year 5
Monthly Active Users (MAU)	15,000	75,000	200,000	500,000

Metric	Year 1	Year 2	Year 3	Year 5
Paying Subscribers	450	3,750	12,000	40,000
Annual Recurring Revenue (ARR)	€32,400	€315,000	€1,080,000	€4,200,000
Break-Even Point	-	Month 18	-	-

1.5 Funding Requirements

Seed Round Target: €150,000

Use of Funds:

- Development & Infrastructure: 55% (€82,500)
- Marketing & User Acquisition: 25% (€37,500)
- Legal & Compliance: 10% (€15,000)
- Operations & Contingency: 10% (€15,000)

2. Company Description

2.1 Business Structure

Legal Entity: Société par Actions Simplifiée (SAS) - France

Location: Lyon, France

Founded: 2025

2.2 Vision

To become the leading Discord-integrated virtual tabletop platform, capturing 5% of the VTT market within 5 years by offering the most accessible and visually compelling TTRPG experience.

2.3 Core Values

1. **Accessibility** - Gaming should be inclusive and barrier-free
2. **Community** - Social connection is at the heart of tabletop gaming
3. **Innovation** - Pushing the boundaries of digital TTRPG experiences
4. **Compliance** - Respecting user privacy and regulatory frameworks (GDPR)
5. **Quality** - Delivering polished, reliable experiences

2.4 Legal Considerations

Domain	Status	Key Requirements
GDPR Compliance	Critical	Parental consent for users under 15 in France; Data processing agreements
Discord Developer Terms	Required	Activity SDK compliance; Content policies adherence
D&D Content Licensing	Resolved	System Reference Document 5.2 (CC-BY-4.0) for core mechanics
ePrivacy Regulation	Required	Cookie consent; Analytics disclosure
French Gaming Regulations	Applicable	No gambling mechanics; Age verification considerations

3. Market Analysis

3.1 Industry Overview

Tabletop Gaming Market

The global tabletop gaming market demonstrates robust growth with multiple research sources confirming the upward trajectory:

Source	2024 Market Size	CAGR	2030-2034 Projection
Cognitive Market Research	\$25.14 billion	12.20%	-
GM Insights	\$12.2 billion	5.5%	\$20.6 billion (2034)

Source	2024 Market Size	CAGR	2030-2034 Projection
The Brainy Insights	\$19 billion	10.56%	\$51.84 billion (2034)
Technavio	-	9.5%	+\$5.17 billion (2025-2029)

Key Insight: The tabletop gaming market is valued between \$12-25 billion depending on scope definitions, with consistent double-digit growth projections.

TTRPG Specific Market

Metric	Value	Source
Global TTRPG Market 2024	\$1.9-2.0 billion	RPG Drop Industry Analysis
D&D 50th Anniversary PHB Sales	Fastest-selling D&D product ever	Wizards of the Coast
Global D&D Fan Base	85 million engaged fans	WotC/Hasbro
Kickstarter TTRPG Funding 2024	\$64 million+	Kickstarter Data
Record Campaign (Cosmere RPG)	\$15 million	Brandon Sanderson

Online Board Games & Digital TTRPG

Metric	2024/2025	2030 Projection	CAGR
Online Board Games Market	\$2.27 billion	\$3.19 billion	7.10%
RPG & Adventure Digital Games	29% of market	Fastest growing (14.6% CAGR)	14.6%
Multiplayer Mode Share	61%	Growing at 8.9% CAGR	8.9%

3.2 Target Market

Primary Market: Discord Gaming Community

Metric	Value	Relevance
Discord Registered Users (2025)	614-656 million	Total addressable users
Monthly Active Users	200-259 million	Active engagement pool
Daily Active Users	26.5-31.5 million	High-frequency users
Total Discord Servers	28.4 million	Community hubs
Gaming-Focused Servers	21+ million (74%)	Direct target audience
Daily Voice Minutes (Gaming)	4 billion	Audio engagement metric

User Demographics

Demographic	Percentage	Notes
Male Users	66%	Aligns with TTRPG demographics
Ages 25-34	53.4%	Core gaming demographic
Ages 16-24	20.6%	Growth demographic
US Users 18-34 Using Discord	37%	High penetration in target market
Teen Gamers on Discord	44%	Future user pipeline

Digital D&D User Base

Platform	Users	Significance
D&D Beyond Registered Users	19+ million	Digital TTRPG adoption proof
Characters Created (2024 Rules)	3.6 million	Active engagement
Maps Used in D&D Beyond VTT	1.3 million	VTT feature adoption
Digital Revenue Share	>50% of D&D profits	Digital preference validated

3.3 Market Segmentation

Segment Matrix

Segment	Size Estimate	Needs	Willingness to Pay	Priority
Casual Players	60% of TTRPG market	Easy setup, social play, visual appeal	Low-Medium (€0-5/mo)	High (volume)
Dedicated DMs	15% of market	Asset libraries, campaign tools, automation	High (€10-20/mo)	High (revenue)
Power Users	5% of market	Customization, scripting, integrations	Very High (€20+/mo)	Medium
New Players	20% of market	Tutorials, accessibility, guided experience	Low initially	High (growth)

3.4 Total Addressable Market (TAM) Calculation

Discord MAU × Gaming Focus × TTRPG Interest × VTT Adoption

= 200M × 74% × 5% × 30%

= 2.22 million potential users

Conservative Target (Year 5): 500,000 MAU = 22.5% of TAM

3.5 Market Trends

Trend	Impact	Opportunity
Post-Pandemic Hybrid Play	VTT usage persists despite return to in-person	Digital tools now expected, not optional
Actual-Play Content (Critical Role, etc.)	New player acquisition pipeline	Marketing partnerships; streamer tools
Digital-First Publishing	PDF + VTT modules standard	Content marketplace potential
Crowdfunding Success	Direct-to-consumer validation	Community funding for features
AI Integration	Emerging differentiator	AI DM assistance; procedural content
Mobile Gaming Growth	68% of online board game revenue	Mobile-responsive Discord Activity

4. Competitive Analysis

4.1 Competitor Overview

Platform	Model	Price	Users	Key Strength	Key Weakness
Roll20	Freemium/SaaS	\$0-\$99.99/yr	154M+ registered	Accessibility; Built-in video; Player search	Performance issues; Dated interface
Foundry VTT	One-time Purchase	\$50	Growing rapidly	Modern features; Modding ecosystem; D&D Beyond integration	Steep learning curve; Self-hosting required
Fantasy Grounds	Hybrid	\$149 or \$30/yr	Established niche	Best automation; Official licenses	Complex UI; Smaller community
D&D Beyond	SaaS + Marketplace	\$6-\$72/yr + content	19M registered	Official D&D platform; Character tools	Limited VTT features; Content expensive
Owlbear Rodeo	Freemium	\$0-\$8/mo	Growing	Simple; Fast setup	Minimal features
Talespire	One-time Purchase	\$25	Niche	Stunning 3D visuals	Limited game systems

4.2 Competitive Positioning Matrix

Strategic Position: DnDiscord targets the high-accessibility, medium-high features quadrant - more powerful than Roll20 with 3D capabilities, but more accessible than Foundry VTT through Discord integration.

4.3 Competitive Feature Matrix

4.4 SWOT Analysis

Strengths

Factor	Impact
Discord Native Integration	Eliminates adoption friction; Built-in community
3D Visual Differentiation	Premium experience vs 2D competitors
Modern Tech Stack	Performance, scalability, maintainability
Freemium Model	Low barrier to entry; Viral potential
GDPR Compliance by Design	European market advantage
Team AI/ML Expertise	Future feature differentiation

Weaknesses

Factor	Mitigation
New Market Entrant	Focus on underserved Discord community
Limited Initial Content Library	Community creation tools; Partnerships
No Established User Base	Leverage Discord server marketing
Resource Constraints vs Incumbents	Lean development; MVP focus
Dependency on Discord Platform	Standalone web version roadmap

Opportunities

Factor	Strategy
Discord Activity Ecosystem Growing	First-mover in TTRPG Activities
D&D 2024 Edition Launch	Ride the content refresh wave
VTT Market Fragmentation	Consolidation opportunity
Actual-Play Streaming Growth	Streamer partnerships; Spectator mode
AI-Assisted Gaming Trend	AI DM tools differentiation
European TTRPG Growth	GDPR compliance as selling point

Threats

Factor	Mitigation
Discord Platform Changes	API version management; Diversification roadmap

Factor	Mitigation
Incumbent Response (Roll20/Foundry)	Speed to market; Niche focus
D&D Beyond VTT Expansion	System-agnostic positioning
WotC Licensing Changes	SRD 5.2 (CC-BY-4.0) is irrevocable
Economic Downturn	Free tier sustains users; Essential entertainment
GDPR Enforcement Actions	Compliance-first architecture

4.5 Porter's Five Forces Analysis

Force	Intensity	Analysis
Threat of New Entrants	Medium	Low capital requirements offset by network effects and technical complexity
Supplier Power	Low-Medium	Discord controls platform; Open-source tech stack reduces dependency
Buyer Power	High	Free alternatives exist; Low switching costs
Threat of Substitutes	Medium	In-person gaming; Other entertainment; General video games
Competitive Rivalry	High	Multiple established players; Rapid innovation

Strategic Implication: Differentiation through Discord integration and 3D visualization is essential. Customer retention through community features is critical due to high buyer power.

5. Product & Service Description

5.1 Product Overview

DnDiscord is a web-based virtual tabletop platform delivered as a Discord Activity, enabling tabletop roleplaying games with:

Asset Marketplace	30% commission	-	€150,000
Creator Subscriptions	20% platform fee	-	€75,000
Discord Nitro Integration	Revenue share	-	TBD
Total ARR		€32,400	€1,305,000

6. Marketing Strategy

6.1 Go-To-Market Strategy

Phase 1: Community Building (Pre-Launch)

Activity	Channel	Timeline	KPI
Discord Server Launch	Discord	Month -3	1,000 members
Development Livestreams	Twitch/YouTube	Month -2	500 average viewers
Beta Waitlist	Landing Page	Month -2	5,000 signups
TTRPG Community Engagement	Reddit (r/dnd, r/lfg)	Ongoing	50+ engaged posts

Phase 2: Closed Beta (Months 1-3)

Activity	Channel	KPI
Invite-Only Beta	Discord Server	500 active testers
Influencer Seeding	TTRPG YouTubers	10 creator partnerships
Feedback Integration	Discord/GitHub	100+ bugs resolved

Phase 3: Public Launch (Month 4)

Activity	Channel	Budget	Expected ROI
Discord Server Discovery	Discord	€2,000	3,000 new users
Reddit AMAs	r/dnd, r/dndnext	€0	2,000 signups
YouTube Sponsorships	TTRPG channels	€5,000	5,000 new users
Product Hunt Launch	Product Hunt	€0	1,000 signups

6.2 Customer Acquisition Strategy

Discord-Native Acquisition

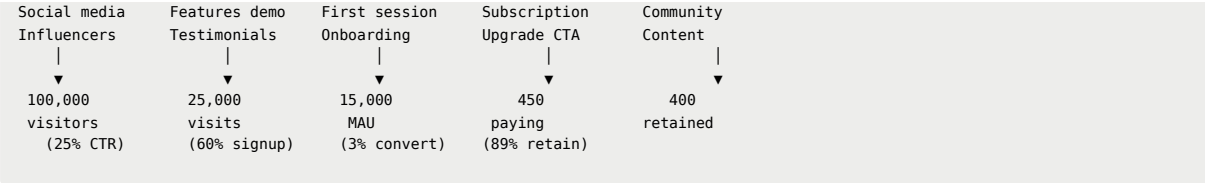

Discord Server Partnerships → In-Server Activities → Viral Word-of-Mouth		
↓	↓	↓
Target: 500 servers Cost: €0.50/server	Target: 10K plays Cost: €0	Target: 2x growth Cost: €0

Content Marketing

Content Type	Frequency	Distribution	Purpose
Tutorial Videos	2/month	YouTube, Discord	Onboarding
Campaign Templates	1/month	In-app, social	Engagement
Developer Blog	Weekly	Website, Reddit	Trust building
Actual-Play Sessions	Monthly	Twitch, YouTube	Demonstration

6.3 Conversion Funnel

AWARENESS	INTEREST	TRIAL	CONVERSION	RETENTION
↓	↓	↓	↓	↓
Discord ads	Landing page	Free account	Paywall hit	Engagement

6.4 Pricing Strategy Rationale

Benchmark	Source	DnDiscord Position
Roll20 Plus: \$5.99/mo	Market leader	Comparable at €6/mo
Roll20 Pro: \$9.99/mo	Premium tier	Below at €12/mo
Foundry VTT: \$50 one-time	Direct competitor	Lower barrier via subscription
D&D Beyond Hero: \$5.99/mo	Official platform	Comparable at €6/mo
SaaS Freemium Conversion: 2-5%	Industry benchmark	Target: 3%

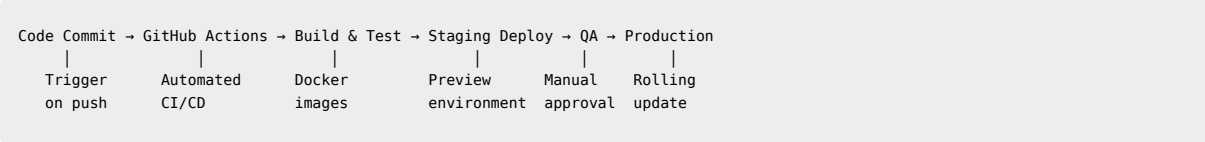

7. Operations Plan

7.1 Development Operations

Infrastructure

Component	Technology	Monthly Cost	Scaling Strategy
Application Hosting	Docker/Kubernetes	€200-500	Horizontal auto-scaling
Database	PostgreSQL (managed)	€100-300	Read replicas
Cache	Redis (managed)	€50-100	Cluster mode
CDN	Cloudflare	€20-100	Usage-based
Monitoring	Grafana/Prometheus	€50	Self-hosted
Total Infrastructure		€420-1,050/mo	

DevOps Pipeline

7.2 Customer Support Operations

Support Level	Channel	Response Time	Staffing
Tier 1 (Self-Service)	Knowledge Base, FAQ	Instant	-
Tier 2 (Community)	Discord Community	<4 hours	Volunteer moderators
Tier 3 (Standard)	Discord Tickets	<24 hours	1 FTE (Year 2)
Tier 4 (Premium)	Direct Channel	<4 hours	Dedicated (Guild tier)

7.3 Quality Assurance

Testing Type	Frequency	Coverage Target
Unit Tests	Every commit	80%
Integration Tests	Daily	Critical paths
End-to-End Tests	Pre-release	User journeys
Performance Tests	Weekly	<200ms API response
Security Audits	Quarterly	OWASP Top 10

7.4 Compliance Operations

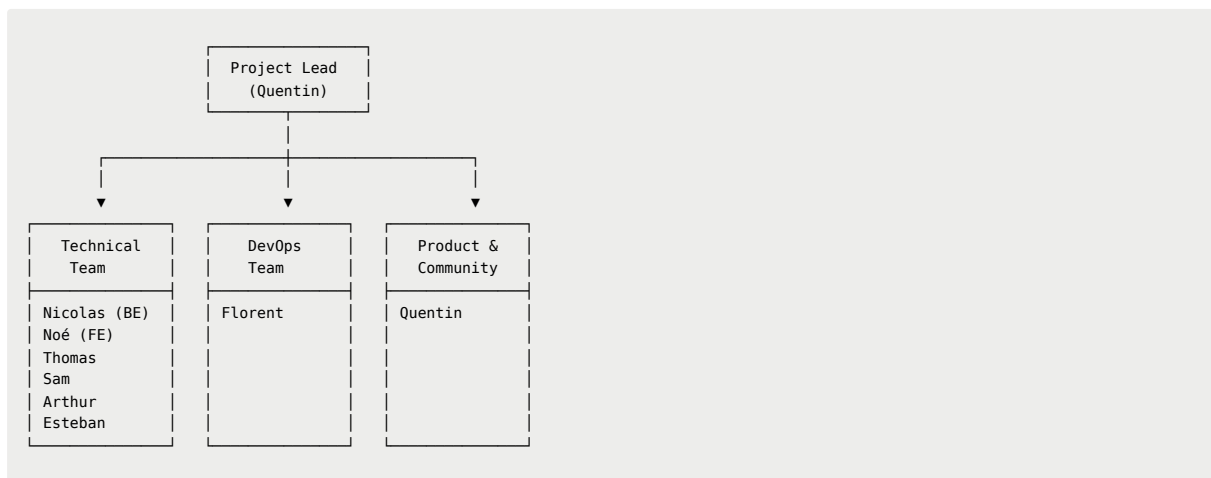

Requirement	Implementation	Review Cycle
GDPR Data Requests	Automated export/delete	On-demand
Privacy Policy Updates	Legal review	Annual
Discord ToS Compliance	SDK version monitoring	Quarterly
Security Certifications	Penetration testing	Annual
Content Moderation	Community guidelines + reporting	Ongoing

8. Management & Organization

8.1 Founding Team

Role	Name	Expertise	Responsibilities
Project Lead / Product	Quentin	AI/ML, NLP, Project Management	Strategy, roadmap, stakeholder relations
Technical Lead (Backend)	Nicolas	Big Data, C#, ASP.NET, WebSockets	Architecture, API development
Technical Lead (Frontend)	Noé	Full Stack JS/TS, AI	3D rendering, UI/UX
DevOps Lead	Florent	Cloud/DevOps, Server Architecture	Infrastructure, CI/CD, monitoring
Security Lead	Esteban	Cybersecurity, Frontend	Security architecture, compliance
AI/Data Lead	Sam	AI/ML, Full Stack	AI features, data pipeline
AI/Data Engineer	Arthur	AI, Big Data	ML models, analytics
AI/Backend Developer	Thomas	AI, Polyvalent	Feature development

8.2 Organizational Structure (Year 1)

8.3 Hiring Plan

Role	Timeline	Priority	Estimated Salary
Community Manager	Month 6	High	€35,000/year
Customer Support	Month 12	Medium	€30,000/year
Marketing Specialist	Month 12	Medium	€40,000/year
Additional Developer	Month 18	Low	€45,000/year

8.4 Advisory Board (Target)

Expertise	Target Profile	Status
Gaming Industry	VTT or game studio executive	Seeking
SaaS Growth	B2C subscription business leader	Seeking
Legal/Compliance	GDPR/gaming regulations specialist	Seeking
Discord Ecosystem	Discord partner or app developer	Seeking

9. Financial Projections

9.1 Revenue Model Assumptions

Assumption	Value	Basis
Free-to-Paid Conversion Rate	3%	SaaS freemium benchmark (2-5% typical)
Monthly Churn Rate	5%	SaaS average for consumer apps
Average Revenue Per User (ARPU)	€6/month	Weighted average of tiers
Customer Acquisition Cost (CAC)	€5-15	Discord-native advantage
Lifetime Value (LTV)	€72	€6 × 12 months avg retention
LTV:CAC Ratio	5-14x	Target: >3x

Operations	€22,500	15%	Legal, compliance, administration
Runway Reserve	€30,000	20%	6-month buffer for unexpected costs

Future Rounds (Projected)

Round	Timeline	Amount	Purpose
Seed	2025	€150,000	MVP launch, initial growth
Series A	2027	€1-2M	Scale operations, team expansion
Series B	2029	€5-10M	Market expansion, acquisitions

9.8 Key Financial Metrics

KPI	Target	Industry Benchmark
Monthly Recurring Revenue (MRR) Growth	15-20% MoM (Y1)	>10% considered strong
Gross Margin	>85%	SaaS average: 70-80%
CAC Payback Period	<3 months	SaaS target: <12 months
Net Revenue Retention	>100%	B2C average: 80-90%
Rule of 40 (Growth + Profit %)	>40% by Year 3	Benchmark for SaaS health

10. Risk Assessment

10.1 Risk Matrix

Risk	Probability	Impact	Risk Score	Mitigation
Discord Platform Changes	Medium	High	🔴 High	API versioning; Standalone web backup
GDPR Enforcement	Low	Critical	🔴 High	Compliance-first design; DPO appointment
Competitor Response	High	Medium	🟡 Medium	Speed to market; Community lock-in
Technical Scalability	Medium	High	🟡 Medium	Cloud-native architecture; Load testing
User Adoption	Medium	High	🟡 Medium	Freemium model; Discord-native distribution

Risk	Probability	Impact	Risk Score	Mitigation
Key Person Dependency	Medium	Medium	● Medium	Documentation; Cross-training
Funding Shortfall	Low	High	● Medium	Bootstrap capability; Revenue focus
IP/Legal Challenge	Low	High	● Medium	SRD 5.2 (CC-BY-4.0); Legal review
Security Breach	Low	Critical	● Medium	Security audits; Penetration testing
Economic Downturn	Low	Medium	● Low	Free tier sustainability; Entertainment resilience

10.2 Contingency Plans

Scenario A: Discord Platform Restrictions

- **Trigger:** Discord limits Activity capabilities or increases fees
- **Response:**
 - Accelerate standalone web client development
 - Pivot to Discord bot + external webapp model
 - Timeline: 3-month development sprint
 - Budget reserve: €25,000

Scenario B: Slow User Adoption

- **Trigger:** <5,000 MAU after 6 months
- **Response:**
 - Pivot marketing to specific niches (e.g., streaming community)
 - Implement referral incentives
 - Consider B2B licensing to TTRPG publishers
 - Extend runway via cost reduction

Scenario C: Competitor Aggressive Response

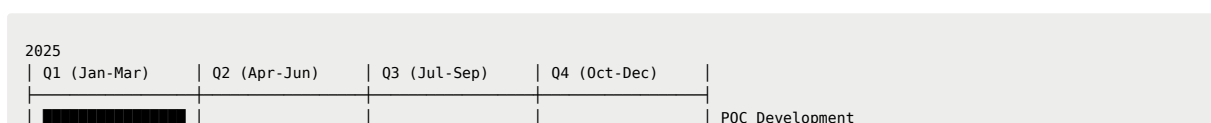

- **Trigger:** Roll20 or Foundry launches Discord integration
- **Response:**
 - Accelerate unique feature development (AI DM, 3D assets)
 - Price competition (enhanced free tier)
 - Community differentiation (DnDiscord-exclusive content)

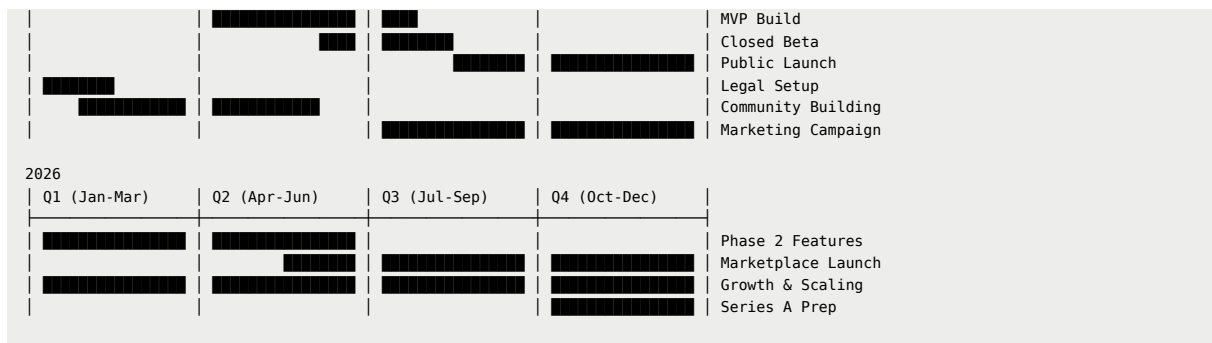

10.3 Regulatory Risk Deep-Dive

Regulation	Requirement	DnDiscord Compliance Status
GDPR Article 8	Parental consent for users under 15 (France)	Age verification at signup; Consent workflow designed
GDPR Article 17	Right to erasure	Automated data deletion pipeline
GDPR Article 20	Data portability	JSON export functionality
ePrivacy Directive	Cookie consent	Consent management platform integrated
Discord Developer Policy	Activity content standards	Reviewed; No prohibited content
SRD 5.2 License	Attribution requirement	Credit in-app and documentation

11. Implementation Timeline

11.1 Gantt Chart Overview

11.2 Key Milestones

Milestone	Target Date	Success Criteria
POC Complete	March 2025	Playable 3D board, Discord Activity working
Legal Entity Established	March 2025	SAS registered, bank account, GDPR documentation
Closed Beta Launch	June 2025	500 active testers, core gameplay loop validated
Public Launch (v1.0)	September 2025	Discord Activity published, 5,000 MAU
Revenue Launch	October 2025	Subscription system live, first paying customers
Break-Even	Q2 2026	Monthly revenue exceeds costs
Phase 2 Features	June 2026	Marketplace, AI assistant, 50,000 MAU
Series A Ready	Q4 2026	€1M+ ARR, growth metrics proven

11.3 Sprint Schedule (MVP Phase)

Sprint	Duration	Deliverables
Sprint 1	Weeks 1-2	Project setup, Discord Activity SDK integration
Sprint 2	Weeks 3-4	BabylonJS scene, basic grid, camera controls
Sprint 3	Weeks 5-6	Token placement, real-time sync (SignalR)
Sprint 4	Weeks 7-8	Character creation (SRD 5.2 classes)
